EXPERIENCE

Senior product designer

Reddit, Inc. - Chicago, IL (Aug 2021 - Present)

- Propelled the Reddit Ads platform to be a first-in-class advertising opportunity across SMB, MM, and LCS advertiser segments, maintaining ~91% of Reddit's total revenue from ad spend.
- Led design for the business manager and permissioning tools; unlocking control, flexibility, and security for agencies and brands across Reddit. Resulted in over $10m in ad revenue after launch.
- Launched recommendations center and an optiscore framework that guided advertisers towards adopting high priority optimizations for their campaign strategies.
- Led the Rmax reporting expansion which creates transparency into our AI optimization performance; empowering advertisers to be hands off while peaking into the "black box" for transparency into their campaign's performance and goal tracking.

UX designer II

Microsoft - Seattle, WA (Mar 2016 - Aug 2021)

- Worked on a team of designers, content writers, researchers, program managers, and front-end developers to improve the Bing Ads platform for our advertisers worldwide; retaining 31.3% ad search market share next to Google Adwords
- Responsible for all UI under accounts & billing for Bing Ads, including but not limited to account onboarding, account management, payment methods, tax management, etc.
- Shipped over 15 major features including a new log-in screen, performance based coupons tracker, and various internal tools for our Bing Ads account managers.
- Involved with diversity & inclusion efforts at Microsoft, seeking to increase attraction, retainment, and engagement with diverse hires ranging from women in engineering to underrepresented communities.

UX design intern

Apptio, an IBM company - Bellevue, WA (Jan 2016 - Mar 2016)

- Worked directly on a design team of nine to create user-focused solutions for technology business management (TBM) and IT cost transparency reporting in Apptio's big data analytics platform that is used by over 250 companies.
- Collaborated on the report creation and editing process as the data visualization expert while emphasizing tenants and traps within the interface.
- Assisted in facilitating the instructional design of an Apptio University course that will be used by over 2,000 of Apptio's users.

UX/UI designer

AmpX2 - Seattle, WA (Jun 2015 - Sept 2015)

- Contract-to-hire role working with AmpX2's white-label cloud software; reporting to a product manager to provide creative user-focused solutions for their web, desktop, & mobile platforms.
- Introduced user experience and user-centered design to the team's development process through research methods, use cases, low-high fidelity prototyping, & interaction design.
- Reviewed designs with team through iterative brainstorming and critiques.

Design & usability lead

AppEpic LLC - Seattle, WA (Jun 2014 - Jun 2015)

- Lead in moderating the usability and design of apps, creating a research process for AppEpic.
- Worked intimately with a usability team of five to help developers better market and test their apps before going mainstream in order to boost their user experience.
- Reported to the CEO our user flows and prototypes for building the online reporting dashboard.
- Managed AppEpic's four social media accounts with updates about app development, usability, and reviews.
